

Re: Job Description of: **HVAC Service Technician**
05/14

Changes are necessary to make the service department function more effectively. You will be responsible for key operations practices in service. It will require craftsmanship, improved skills, improved tools, and excellent communication. It will be a challenge, it will be frustrating at times, however we believe you are the right person for the job. The challenge is large and will not be easy, yet it is attainable and can be especially gratifying and profitable.

FUNCTION: To provide skilled work in maintenance, installation, selling, replacing, and repairs of heating, cooling, and ventilation equipment.

DUTIES: Typical: Performs installation, repair, and preventative maintenance work. Lubricates moving parts, changes belts and filters of various sizes. Makes periodic boiler, chiller, package unit, split-system, mini-split, refrigeration, ventilation, air-conditioning, and heating checks / inspections. Keeps all customer's owned equipment, all personal tools, and all A&R provided tools and equipment in usable condition and in good working order. Assists in the upkeep and preventative maintenance of facilities and makes necessary repairs to a variety of units. Performs simple to complex repair work. Maintains heating and cooling units and assists in the replacement of old systems. Performs other related duties as required. Verifies that all work complies with city / state building codes. On a rotational basis you will be required to serve as a team member on a on call basis which is 7 days in length. Answers customer's questions and assesses their needs and being mindful integrity and truth. At every opportunity you are expected to offer and educate the customers on higher efficiency units and accessories. You not only have to be excellent in your technical skills such as electricity, carpentry, plumbing, refrigeration, and of course HVAC, but your customer service and communication skills must be superb. You must follow the chain of command structure and complete all paperwork without delay, to add you will need to address customers when they are in a stressed and frustrated environment therefore you must use diplomacy to resolve any situation, if a situation is more then you can handle do not hesitate to ask for assistance. You must work and operate your vehicle and tools in a safe manner and be ever mindful of the image for yourself and A&R.
